Cost of the Meal is \$13.00*

*Includes buffet, ice tea, tax, and gratuity

Jim Donelon

The Affordable Care Act, otherwise known as “Obamacare” will be the main subject of the Commissioner’s presentation at this meeting. Even though the act is several years old now, it has just begun to be enacted. Most people, if not all, are very uninformed about this law and how it will change their lives in the very near future. Having access to our state Commissioner of Insurance is a wonderful opportunity for citizens to hear, ask questions, and generally get ready to face this brave new world.

Happy
Birthday
to us!

Ten years ago today (February 25th), six people met at a house on President Drive in Baton Rouge about forming a club that would become the Pachyderms of Greater Baton Rouge. Thanks to each of our past and current members and board members for your part in making and keeping us great after all these years!

Common Core Forum

A very well attended Common Core Forum was held in Baton Rouge on Feb. 20th. I was there. Like many of us, I knew enough about Common Core to know that I don’t want it; yet not enough to be comfortable trying to convert a State Legislator or School Board member to come over to my side of the issue. I found the panelists at this event extremely informative and well versed on the subject matter. Now I feel as if I finally understand what Common Core is all about. One of the presenters was Dr. Terrence Moore, a professor at Hillsdale College. He has written a book on the subject that is truly wonderful. It is not only informative, but also so well written that it reads like a piece of good literature! The book is entitled “THE STORY-KILLERS” A common-Sense Case Against the Common Core. (ISBN:1493623370 ©2013 by: Terrence O. Moore)

But what can I do to stop this great injustice?

You can buy a copy of this book, either print or electronic, as I did at any major bookseller. But, to really make a difference, go straight away to your local Library and request that they get a copy for you to check out. They will not have one, but they will order it for you, and from then on it will be in the library available for the next person who asks for it. This little trick, will help in the long run. And, you can be sure that this will be a long long fight.

Below is a political cartoon from 1934 which illustrates that our current "Progressives", led by Obama, Pelosi, and Reid, are continuing to follow the age-old Communist plan that inspired FDR and his buddies. Notice the FDR brain trust and the students labeled "Young Pinkies" in the back of the wagon busy throwing away the people's money as fast as they can. Stalin watches from the sidelines as the "PLAN OF ACTION" for the USA is being written by a leftist professor. The Bankrupting of America has been planned by idealists like Hillary Clinton for the better part of a 100 years! And she is so ready for her turn.

Is Obamacare working?

Have you noticed how happy Harry Reid and Nancy Pelosi are every time you see them on television?

Back in 2009, Senator Harry Reid told an audience in Los Vegas that what he really wanted for American health care was a “single payer” system like in Great Britain. Some actually call it “The Cuban health care model”. And, as with the English and the Cuban system, it will necessarily include the “death panels” that Sarah Palin talked about.

President Obama and Minority Leader, Nancy Pelosi, are both totally for the “single payer” socialized medicine system. This is well documented. Just go to your computer and look up “Single Payer” and you will find more information than you can read.

But the Progressives are in no hurry to roll out their single payer dream system. The Affordable Care Act still has work to do. This huge 2600 page law was designed to accomplish several things to pave the way for true socialized medicine. In a nutshell, those things are:

1. Destroy the private health insurance industry in America.
2. Create as much panic and pain in the population as possible.
3. Accumulate record money surpluses for the Progressive elite to share in corruption.
4. Bring the nation into international bankruptcy
5. Cause the middle class to use up savings and become completely dependent on Government.

When those things are accomplished, the Government, benevolent and all caring, will propose “single payer socialized health care”, and the people will jump to accept it and, like starving animals, lick the hand that gives it to them

The plan will be very much like health care in Cuba and North Korea. The Government will control it all, and bureaucrats will decide, on a case by case basis, whether you are valuable enough to the collective to be given any of their valuable “care”. The older and sicker you are, the more likely you will be put on a “list” to wait until you die.

The time to work to defeat their plan is now. Right now! If we are unable to win the Senate and hold the House in 2014, and then win the Whitehouse in 2016, their victory will become set in stone and American liberty will be no more. Yes, the country will still be here, and many of us will live more or less normal lives. But America, that beautiful “City on a hill”, of which Ronald Regan spoke, will be just a thing of the forgotten past. The Constitution will become just an old historical document, a curiosity in a museum. And our founders will become just average old white slave owners whose names we will not remember.

We Want You!

Join the Pachyderms of Greater Baton Rouge today and help us carry out our organization’s mission to:

“Promote active citizen involvement and education in government and politics...”

Dues are only \$35 per year! Fill out the form below and mail it in with a check made out to Pachyderms of GBR:
